Caros companheiros do PCLinuxOs Brasil,

Em primeira mão foi anunciado o Lançamento oficial hoje dia 22/08/2012 no distrowatch da nova versão do PCLinuxOS:

Citação:

"PCLinuxOS 2012.08, a new version of the project's easy-to-use Linux-based operating system for x86 desktops or laptops, has been released: "PCLinuxOS KDE and KDE MiniME 2012.08 are now available for download. These are 32-bit quarterly update ISO images which can also be installed on 64-bit computers. Features: Linux kernel 3.2.18.2bfs for maximum desktop performance; full KDE 4.8.3 desktop; NVIDIA and ATI fglr driver support; multimedia playback support for many popular formats; wireless support for many network devices; printer support for many local and networked printer devices; addlocale allows you to convert PCLinuxOS into over 60 languages; LibreOffice manager can install LibreOffice supporting over 100 languages; MyLiveCD allows you to take a snapshot of your installation and burn it to a live CD/DVD..." See the distribution's download page for more information about this version. Download: pclinixos-kde-2012.08.iso (868MB, MD5)".

Abraços.
